

ICONMA named to 2010 Inc. 5000

Troy, Michigan – February 21, 2005 – ICONMA, a premier provider of professional staffing and project-based services and solutions, announced today that it plans to increase the head-count with professionals experienced in .NET Technology to meet the growing demand for resources in our product development team as well as for client projects.

ICONMA has invested in training resources and development best practices for application development using Microsoft .NET architecture. ICONMA's Microsoft .NET team leverages this expertise to enable rapid, quality application development to provide specific business solutions.

The Microsoft .NET Team is staffed by trained Microsoft Certified professionals with experience in applications development in a Microsoft development environment. Currently our team focuses on the development and maintenance of custom applications built using C#, VC++, or VB/ASP on the .NET environment and .NET compact Framework.

About ICONMA

ICONMA is a woman-owned consulting firm providing professional services and solutions to a broad range of Fortune 1000 organizations nationwide. ICONMA was founded in 2000 on the principle that success is derived from delivering high quality service while being responsible, flexible, and innovative. Commitment to this principle has led ICONMA to become a certified and multiple award-winning organization that guides our clients to operate more productively and to improve profitability, top-line growth, customer service, and cost management.
